Edit Translator Entry Zeitintervall

Options [F5] Incoming [F6] Rules [F7] Outgoing [F8]

Select the Incoming Trigger type: MIDI message

MIDI message trigger: CC #: Sostenuto, 127

B0 43 7F

Enter the MIDI message as a sequence of hexadecimal numbers. You can also use variables (pp, cc, ...). E.g. 90 4A pp will trigger on all Note On messages of key hex 4A with any velocity. Then, pp will be set to the velocity of the incoming message.

Swallow incoming MIDI message and do not route to MIDI THRU port(s)

Description of the MIDI message (optional)

Outgoing: (none)
